

April 8, 2020

To our valued customers:

We hope this email finds you well during these challenging times of COVID-19. With new updates daily, we did want to take a minute to update you on what the Clear Choice Group is doing in light of this global pandemic and how this could affect your upcoming installation.

As deemed essential, per Florida Governor DeSantis's "Safer at Home" Order, Clear Choice Group remains open with a skeleton staff maintaining daily operations:

- We are all aware of the ongoing outbreak of the Coronavirus 2019 (COVID-19), which was recently declared a pandemic by the World Health Organization and the President and Governor have declared a national and state emergency, respectively. Although the situation continues to evolve rapidly, Clear Choice Group remains fully committed to pursuing the completion of our work in a safe, diligent and reasonable manner under the current circumstances. We must recognize, however, there is a strong likelihood that we will encounter certain delays as a result of this pandemic.
- Whilst our doors remain open at this time, we are anticipating a 4-8 week delay in our installation schedule. Potential impacts may include, but are not limited to, labor shortages due to infection or quarantine as well as material shortages and significant delays in lead times as a result of factories closing across the globe.

We truly hope we will be able to return to normal operations as soon as possible and will keep you informed on any updates we may have on our website or via email and their effect on overall job completion. We will diligently seek to minimize to the best of our ability, the effects of these delays on our work. Your cooperation and understanding of the situation and the impact it is having on all of us is greatly appreciated as we continue to diligently work through this unprecedented event.

Sincerely,

Brett Pytlik,  
President

**Clear Choice Group**
